MODELS DESTINED TO BECOME HIGHLY SOUGHT-AFTER BY THE MOST PASSIONATE GUZZISTI AND COLLECTORS

Mandello del Lario (Lecco), 3 September 2026 – Coinciding with the inauguration of Moto Guzzi's new home in Mandello del Lario, **the exclusive 105th Anniversary edition** is unveiled. Created to celebrate **105 years** of the House of the Eagle, it also pays tribute to an extraordinary project – a milestone in Moto Guzzi's history – that opens the door to a new industrial, museum and cultural experience.

The **Moto Guzzi 105th Anniversary** edition draws heavily on the architecture and colours that define the extraordinary complex designed by American architect Greg Lynn, which, in addition to the new factory, includes the new Moto Guzzi Museum and extensive spaces for events and visitors from around the world. A place to **create, experiment, enjoy new experiences and stir emotion** – the home of the new **Moto Guzzi** that will welcome us for the next 105 years.

Available from October, and only until the end of 2027, the special **105th Anniversary** edition will be offered on the **Stelvio, Stelvio PFF Rider Assistance Solution, V100 Mandello, V85 Strada and V7 Stone**. It features a dedicated grey livery with a glossy pearlescent finish. This contemporary shade evokes an industrial, metallic and authentic aesthetic, and is an **elegant, distinctive** livery inspired by the architectural design of the new Moto Guzzi.

The grey colour scheme is enhanced by **contrasting yellow details**, also inspired by the finishes at the new Mandello site. These include the dedicated **Moto Guzzi 105th Anniversary graphic**, which runs vertically along both sides of the fuel tank, and the number 105, positioned where the iconic Eagle would normally appear. The same graphic also appears on the rear wheel rim. The **seat**, too, has been created specifically for this special edition, with **the stylised Moto Guzzi Eagle and contrasting yellow stitching**.

These special-edition models mark one of the most significant moments in Moto Guzzi's history and are destined to become highly sought-after by Guzzisti and collectors worldwide.
